

Company Overview

Give Your Business A Performance Advantage.

ADT's video auditing service, based on remote video technology provided by Arrowsight, Inc., is improving the security, operational and marketing performance of many businesses in multiple industries. ADT's remote video auditing service operates through ADT Select Vision and offers the following services:

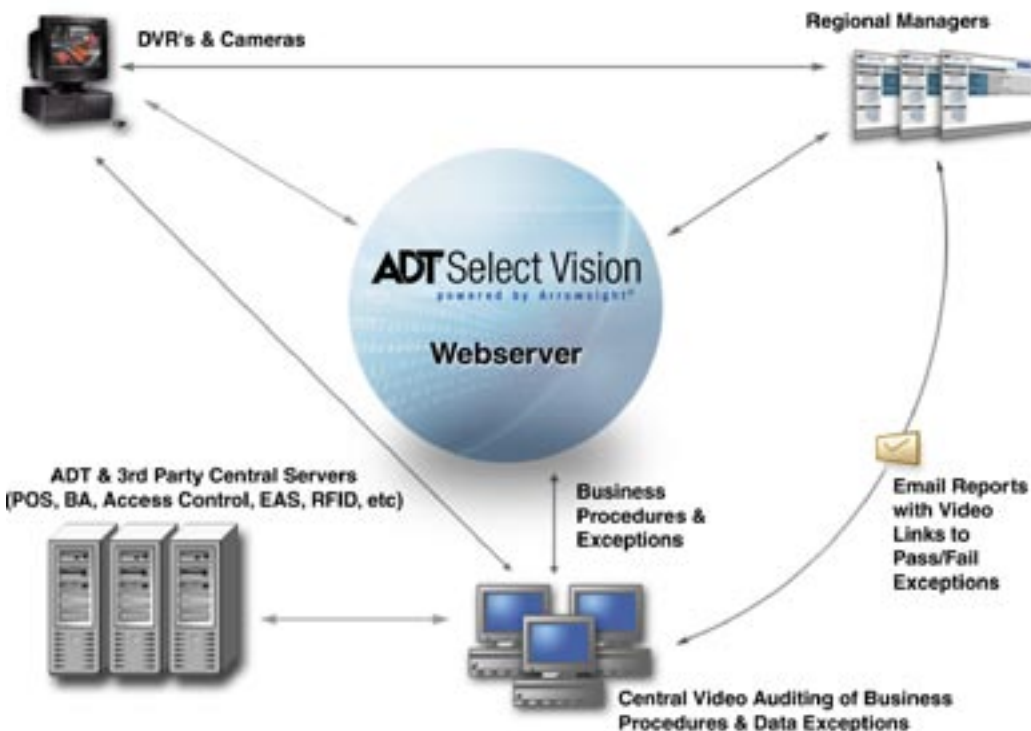

- **ADT Select Vision Remote Guard Tour Services:** Remote video surveillance security guard tours by ADT Special Operations Team with Web-hosted reporting services.
- **ADT Select Vision Video Auditing Services:** Remote video analysis of customer-defined business, operational, and security procedures with weekly compliance reporting.
- **ADT Select Vision Self-Service:** Remote web-based access for customers through www.adtselectvision.com for multi-location Live Video & Saved Video and a full suite of User Administration, Reporting & IT Network Management tools.

Better Your Business:

- **Increase Efficiency**
- **Boost Productivity**
- **Increase Safety & Security**
- **Leverage Investments**
- **Increase Profits**
- **Better Practices**

Get More From Your Infrastructure Investments.

Our software integrates with many existing security and monitoring systems, enabling companies to maximize their investments and minimize expenditures. ADT Select Vision uses the web to bring data collected by security and facility systems to business managers who audit their operations and staff performance.

Tools that Transform Practices - and Improve Processes.

Alone and unmonitored recorded data is worthless. Audited and analyzed, the data produces a bevy of value for businesses. Through ADT Select Vision's analytics, we deliver daily, weekly and monthly audits and compliance reports. Our reports monitor a myriad of benchmarks and critical control points including: compliance, safety, operational efficiency, customer service and inventory shrinkage.

A Powerful Service, Backed by the Powerhouse of Security Services.

ADT's remote video auditing service operates through ADT Select Vision. ADT Security Services, a business unit of Tyco Fire & Security, is the largest single provider of electronic security services, serving nearly six million commercial, government and residential customers throughout the United States.

Isn't it Time You Used Video Auditing Services to Better Your Business?

McDonald's, Pfizer, Limited Brands, Plumrose USA and Brookfield Farms are just a few of the companies that are using video auditing services to better their business. Let us show you how our tools can transform your productivity, profits and overall efficiency.
